

Elementary And Secondary School Emergency Relief Fund (ESSER FUND)**Section: Narratives - Program Description****INTRODUCTION**

Under the Elementary and Secondary School Emergency Relief Fund (ESSER Fund), the Pennsylvania Department of Education (PDE) awards grants to local educational agencies (LEAs), to address the impact that Novel Coronavirus Disease 2019 (COVID-19) has had, and continues to have, on elementary and secondary schools across the state. LEAs must provide equitable services to students and teachers in nonpublic schools as required under the Coronavirus Aid, Relief, and Economic Security Act (CARES Act).

Please note: ESSER funds, under any part of 18003, **cannot** be used for: 1) subsidizing or offsetting executive salaries and benefits of individuals who are not employees of the SEA or LEAs or 2) expenditures related to state or local teacher or faculty unions or associations. CARES Act funds generally will not be used for bonuses, merit pay, or similar expenditures, unless related to disruptions or closures resulting from COVID-19.

***ESSER funds are not Title I funds and as such, are not subject to Title I rules.**

Please explain how the LEA will determine its most important educational needs as a result of COVID-19. (3000 characters max)

Numerous surveys were sent to families, staff members, and students to gain input regarding the educational needs of our district as a result of COVID-19. The administration studied a wide variety of research studies and recommendations in the field, and met both as a team and in collaboration with teacher leadership throughout the summer to further analyze our needs and formulate a plan to address them.

Please explain the LEA's proposed timeline for providing services and assistance to students and staff in both public and nonpublic schools. (3000 characters max)

Prior to the governor's order to shut down schools on March 13, 2020, South Middleton had already begun to engage in planning regarding educational delivery as well as student service delivery in the event of a school closure. From the onset of the closure, plans were made to ensure device distribution, asynchronous learning delivery, meal delivery, and so on. As soon as the 2019-2020 school year concluded, plans began to ensure educational services would continue while simultaneously ensuring the safety of students and staff.

Please explain the extent to which the LEA intends to use ESSER funds to promote remote learning. (3000 characters max)

ESSERS funds were used for Zoom licenses, Kajeets, and student devices and carrying cases-all which are essential to successful remote learning.

Please describe how the LEA intends to assess and address student learning gaps resulting from the disruption in educational services. (3000 characters max)

Elementary And Secondary School Emergency Relief Fund (ESSER FUND)

South Middleton utilized ESSERS funds to hold a summer transition camp for students who struggled during the spring period of emergency remote learning and to offset credit recovery costs for students who struggled during the remote and hybrid learning models in place this year.

Please describe the LEA(s) proposed procedures for evaluating local COVID-19 impacts in relation to education programming and delivery. (3000 characters max)

Areas of emphasis should include:

- Documenting learning loss associated with extended school closure;
- Outlining the development of local continuity of education plans over the course of emergency response efforts; and
- Detailing supports for vulnerable student populations and families.

South Middleton has continued its practice of data team meetings at our elementary school schools this year, and we have instituted data meetings at our middle and high schools to identify students who are struggling and enact supports as necessary. In addition, we review student data at the district level in order to determine cohorts of students who are behind in requisite skills so that we might develop a plan to respond to those skill deficits accordingly. Credit recovery has been instituted for students as needed. A "Cohort C" of students were identified in grades 6-12 and those students were brought in to our brick and mortar schools 4 days per week during our hybrid model (while their grade level peers came in 2 times per week)-and are now being brought in on Fridays while the rest of the students participate in remote learning.

Please describe the LEA core set of strategies that will be used to guide local investment of CARES funding, associated with short-range (i.e., remainder of the 2019-20 school year) and long-range (2020-21 and 2021-22 school years) timelines. (3000 characters max)

These strategies may entail the establishment, scale-up, refinement, or evaluation of remote learning, as well as strategies for school-based teaching and learning responsive to conditions related to the pandemic. LEAs will be asked to outline how limited, one-time CARES funding may support these initiatives and how CARES funding might interact with other federal funding, including enhanced Title IV flexibility, to ensure strategic and sustainable use of one-time funds.

In addition to addressing the short term connectivity needs of students and staff during remote learning, and purchasing Zoom licensing to allow teachers to deliver live synchronous instruction during remote learning, funds were used to purchase devices and carrying cases which will continue to be used throughout our hybrid model of instruction as well as our fully brick and mortar model of instruction moving forward.

Please describe specific plans, measures, and longer-term evaluative strategies concerning student learning gaps - as well as opportunity to learn factors - stemming from COVID-19. (3000 characters max)

South Middleton School District has and will continue to utilize parent, student and staff survey data, enrollment data, student achievement data, attendance data, social emotional wellness data to evaluate the impacts of COVID-19. In addition, members of the administrative team regularly study research

and information on current best practices in our field, attend professional development on this topic, and collaborate with job alike colleagues who work in other Pennsylvania school districts.
