

Technology Committee Meeting Minutes – Tuesday October 4, 2022 (6pm)

In attendance were Brad Group (board president), Eric Berry (chair), Shannon Snyder, Brandon Hall, and Brian Ronan.

Old Business – Mr. Hall was brought up to speed on the Student Technology Fee which was implemented before he joined the board.

New Business – Committee was updated on the implementation of the changes to the streaming of board meetings and committee meetings. Board meeting streams are posted until the minutes are approved at the following board meeting. Also, recording has been streamlined and is now being done directly from iPad camera instead of separate camera and computer as before.

While not an agenda item, all members agreed that it would be nice to see the implementation of online payment options for the technology fee, but also tickets for events. We believe this would make things easier for both parents and staff.
